

### Applications:

Connect and route signal from source to display via concealed cables.

### Ideal use:

AV systems. Corporate board rooms. Education facilities

## The SY WP-H

- Flash mount HDMI and VGA port**  
 An ideal solution for concealment of cables. Use as connection point in walls or desks.
- Secured connection**  
 High quality connection point will not affect connection quality and affect ultimate transmission range adversely.
- Design with homes and offices in mind**  
 The high gloss pearl white and rich aluminium finish create a visual effect that is pleasing in almost every environment this model will be used.
